

The Boys & Girls Club Means BE GREAT!

By: Christina

My perspective of the Boys & Girls club, and what it really means to me is how much an organization can do for a child including me. One year my family wasn't doing that great, it wasn't looking good for presents or even a jacket or shoes to wear. But what happened? How did I get my presents and clothing? Well from a loving family who trusts and loves this place, they gave me a bag full of toys when I expected only one or two at the most. This gift to me was more than anything I've ever gotten. In the time of need they are there for anyone, including you. Another time myself and others forgot their sunscreen and a staff member bought sunscreen for us. They are our support for kids like myself and I'm, sure others will be proud to stand for this organization. My point is the club represents to me care, protection and happiness, which for me, are the things I stand for to be great.
